Subject : Thank you

Dear Mas,

We are back from our Photography Tour in Asia, and I just wanted to thank you for all your efforts for our recent photography assignment in Thailand and for such a warm welcome to your lovely country.

The project was long and challenging to say in the least. However, your attention to detail and professional approach both at the location and the pre-production organisation, along with your comprehensive shooting schedule, made the project run smoothly and a complete success.

We are also very pleased with the location photography, all the shots are postcard material!
My team and I really enjoyed working with you and your crew and hope we can work together again in the future.

Best regards,

Sharon Retrae-de Kort
